**5.1** 0/49143: discussion that the building had already been erected. No remark, approve.

**5.2** 0/49182: discussion that this would be a large development and that the area land involved is significant. All agreed that the buildings as they are currently are dangerous. Councillors in agreement that the project would place too many holiday accommodation properties in the village and that it is affordable housing that is required in the area. All in agreement that the development is too big and concern about the road network and safety. Councillors in agreement that something needs to be done about the site but that this development is too big for the village and it would change the village significantly.

All in agreement to reject the application as it currently stands as there is plenty of holiday accommodation in the village already and that this proposed development would change the village in its entirety due to size and concerns about access to the site. Also note that the Council doesn't object to developing the site.

**7 COUNCIL MATTERS**

**7.1** To be discussed next meeting.

**7.2** CR & EW had met in the cemetery recently, trees opposite Llais Afon dangerous and urgent work needed. Members of the public had contacted EW to report the trees due to damage. CR had already asked Dewi Williams to undertake the work due to the urgent nature being a health and safety risk to the public. CR asked the Councillors' opinion on cutting the soft wood down half or all the way to the ground. REW & EW asked what the position was in relation to planning permission to cut the trees. All in agreement that the trees needed to be cut right away due to health and safety. DR proposed that Ysgol Bro Cernyw pupils are offered a chance to plant new trees in their place, project in place through Woodlands Trust.

AV raised that other branches have fallen in the cemetery, CR will ask Dewi Williams if he can clear them, otherwise will ask Kevin Roberts to undertake this work.

- 7.3** EW had been looking at prices for Chrome Books – around £200, laptops available for around £400. The Council's email account would work with a Chromebook but it would need to be connected to the internet to work. DR raised that it would be a good idea for whomever undertakes work relating to preparing documents for audit/accounts could use the laptop so that everything can be kept on one device. She also raised the possibility of using a memory stick. Council's current laptop around twelve years old therefore decided this is too old to be considered. Also need to purchase Microsoft Office programme for the laptop, discussed a subscription fee would apply. REW proposed purchasing a laptop seconded by AV.

EW also reported that she had heard from the County Council that there is money available to purchase a Zoom licence. She also discussed that it is now law that meetings need to be held multi-venue, therefore need to offer attendance via the internet. Discussion that Microsoft Teams could be used to facilitate online meetings therefore no need to purchase a Zoom licence.

The owner of Brook Cottage wanted to attend tonight's meeting to discuss the work however had not given enough notice that they wanted to speak.

Had received communication from Cartrefi Conwy that one of the houses at y Fron, Pandy Tudur will become available for purchase in the new year and asking if there was someone local wanting to purchase they should contact Iwan M Williams, Llanrwst to register interest.
